

Secondary Glazing

SUMMARY

We supply and install bespoke secondary glazing to clients specifications as well as installing aluminium secondary glazing from suppliers. Secondary Glazing doesn't require planning or listed building consent prior to installation and can be easily installed on Sash and Case windows. If your existing windows are in good condition, installing secondary glazing may be the best option for you.

Benefits include: Reductions in noise, draughts, condensation as well as additional security for your home.

Secondary Glazing comes in a number of different variations and we've shown some examples below.

TILT IN BALANCED VERTICAL SLIDER

- Slides up and down and tilts inward to facilitate cleaning and ventilation.
- Available in various paint finishes
- Separate panes to match existing sash windows.
- Spring Balanced

Typical costs for 3ft x 6ft Window - Supply and Installation

Toughened Glass: £750 + VAT	Acoustic Laminate: £850 + VAT
